KM ~ Cold shrink sleeves

Technical specifications

WIDTH	LENGTH	PIECES	KG
75	15	24	1,35
50	15	24	0,82

Is used for sealing ducts, especially for places which require airtight sealing

Technical details:

- carrier: 0,1mm polyethylene
- adhesive coating: 1mm
- colour: grey
- banding time: 24 hours (max.)
- water resistance: very good, apply to dry surface
- peel on steel: 9 N/cm (23°C)
- density: 1.7g/cm³
- elongation at break: ≥ 700%
- fire reaction classification: B2 (DIN 4102, part 1)
- flexibility: excellent up to -40°C
- temperature resistance: -40°C to +70°C
- solid substance: 100%, no evaporation
